REASONS FOR ALLOWANCE

The following is an examiner's statement of reasons for allowance: The art of record is the closest to the claims. However, the prior art fail to teach or suggest a method for performing an anastomosis with a graft vessel to target tissue; wherein a first and second slits are made in the side wall at each end of the graft tubular device and a third and forth slits are made in the side wall of the target tissue. Approximating the graft and target tissue with hollow annular connectors so that the annular connectors deforms and axially shortens around the sidewalls of the anastomotic site.

For these reasons the examiner believes the claims are allowable over the art of record.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
